

TARGET GROUP

The certificate “Leadership in Science” addresses to you as a young scientists at TU Ilmenau. It supports you in your personal development and your interdisciplinary further education and is therefore an instrument for the promotion of young scientists as well as for human resources development at the university.

STRUCTURE

The certificate program supports you in:

- identifying your goals
- increasing your potentials
- strengthening your strengths
- improving your soft skills

For both academic and non-academic applications, this will pay off for you.

SETTING

The programme consists of three modules, which do not necessarily complement each other but can be attended and completed in parallel.

Module 1 “Basics” (80 WU)

Module 2 “Consolidation & Reflection” (10 WU)

Module 3 “Transfer to practice” (30 WU)

Certificate program Leadership in Science
