

Registration form for study-related stays abroad

According to the revised university statistics law dated 1 March, 2016, the collection of data referring to temporary study-related stays abroad by university graduates has been mandatory since the beginning of the 2017 summer semester. This is important for the correct recording of what you achieved during your stay(s) abroad on your transcript of records. Please give details of any study-related stays abroad (up to a maximum of three). There is no minimum indicated with reference to the length of the stay or the number of achieved ECTS points. In case of more than three stays abroad, please indicate the three longest stays.
